Members :

- active young workers for young people aged 30 – 60 years
- young volunteers aged 14 - 30 years
- we have members in all levels of education (from high school to college)

ACTIVITIES :

Promotion of cultural, sporting and socially useful content in the Republic of Croatia, Karlovac City and County

Connect with associations of similar or the same direction in our country and the world, especially Europe to promote European citizenship

Helping young people, pupils and students in achieving their rights

Encouraging inter-generational solidarity and works to protect the rights of older

Encouraging the protection of women's rights, labor rights and consumer rights in local communities

Implementation of projects of interest to the local community

Implementation of lifelong learning for all citizens

Promote international cooperation and implementation of international their projects

European Voluntary Service

- *We are also accredited organization in the EVS programme as sending organization under the reference number 2012-HR-12.*
- *By being a sending organization we are providing the potential volunteers with possibility for meaningful projects where they can use their skills and abilities and contribute to a better community.*

European projects :

*“Leadership
and
empowering
approaches
for
disadvantaged
young
people”*

*“Reconsider
Before
Consuming”*

*“Streets of
information “*

Conclusion

- Main theme that runs through all our activities are the EU integration, life in Croatia after accession to the European Union, and emphasizing the importance of preparing for the integration of all citizens.
- Continuously emphasize opportunities for young people in the EU, the potential offered by the EU through becoming European citizens.
- The strategic objectives of our organization are in line with the European policies and priorities and we are using European instruments and programs to achieve these goals.

A photograph of a city street in winter. The ground is covered in snow, and the buildings are multi-story with many windows. Several street lamps are visible, and a few people can be seen walking in the distance. The lighting is soft, suggesting a low sun.

Thank you for your attention!
